Summary

B-tech Computer Science graduate with a strong foundation in frontend development, including HTML, CSS, and JavaScript. Skilled in building responsive and user-friendly web interfaces. Hardworking, reliable, and a strong team player with excellent communication skills. Motivated to take on new challenges and contribute to successful, high-quality projects.

Technical Skills

HTML, CSS, JavaScript, C++, React, SQL, Database Management, Object Oriented Programming

Projects

Personal Portfolio Website | HTML, CSS, JavaScript
• Designed and developed an interactive personal portfolio to showcase skills, projects, and contact information.
• Implemented responsive design principles for seamless user experience across devices; improved page performance and accessibility.

Simon Says Game | HTML, CSS, JavaScript
• This is a fun and interactive memory game built using HTML, CSS, and JavaScript.
• It challenges players to remember and repeat an increasingly complex sequence of colors.
• With each level, the difficulty increases as a new color is added to the pattern.

Weather Widget | React
• Developed a responsive weather widget using React; integrated with a public weather API to display real-time weather, temperature, and location.
• Optimized component rendering for fast updates and minimal API latency.

Education

Bachelor of Technology in Computer Science
CGPA-7.06
Medi-caps University

Higher Secondary (2021)	**Senior Secondary (2019)**
